Remark

1. The current and speed in the table are the averages tested when using push force.
2. The current & speed results in the table are based on the use of a GaMinG brand control box, and there will be an error of about 10% depending on different types of the control box.
3. 29V DC @ no-load, 24V DC @ rated load
4. Stroke & Load:

Eg. Stroke 100mm, retracted length=205mm, ectended length=305mm
2. If stroke >=300mm, Retracted length = stroke +120mm
Eg. Stroke 400mm, retracted length=520mm, ectended length=920mm
